

Analysis and documentation of a single page application based on TiddlyWiki

Christian Jurke 898872, Christian Heigele 901361

June 10, 2014

Contents

1	Introduction	1	2
2	Decomposition of the TiddlyWiki-Architecture	3	2
2.1	Architecture of the single page application TiddlyWiki	1	2
2.2	Tiddler as the key element	1	2
2.3	The WikiText concept	1	2
3	Bootstrap-Process	2-3	2
3.1	The Heart of TiddlyWiki (Boot-Kernel)	1 - 1.5	2
3.2	Timeline of the startup Process	1 - 1.5	2
4	The Plugin and Module concept	4-5	2
4.1	Introduction to the Plugin-Concept	1	2
4.2	Kernel-Plugins	1	2
4.3	UI-Elements	1	2
4.4	Developing a own Plugin	1-2	2
5	The TiddlyWiki data management concept	2-3	2
5.1	Data Management during Runtime	1-2	2
5.2	Data Persistence	1	2
6	Summary and Conclusion	1-2	2
	Pages	Min:13 Max:17
